TRADITIONAL PRODUCTION OF HEALTHY FOOD

DAIRY PRODUCTS PRODUCT CATALOGUE

WHO WE ARE

TPH FOOD GROUP

- is one of the leading ukrainian producers of dairy products one of the largest ukrainian exporters of blended butter, the company exports its products more than 30 countries around the world.

THE GROUP OF COMPANIES INCLUDES:

Baranovsky Dairy Plant

- dairy plant, with modern equipment and the ability to produce more than 50 tons per day. A new approach to the production process allowed (except for a wide range of high-quality products) to carry out orders on special recipes of our partners.

The plant has the Quality Management System ISO 9001:2015 and Food Safety Management System ISO 22000:2005. Also, the quality of products and the technological process comply with the requirements of Halal and Kosher.

TPH Dairy LLC

- is a trading company that sells products manufactured by Baranovsky Dairy Plant.

We are the Ukrainian production that combines innovative technologies and the experience of traditional methods of the food industry. All our products are made from environmentally friendly raw materials, which passes several levels of verification, certification and meets international quality standards.

We have a wide range of trade marks known in different countries and also provide different types of packaging for different sales channels. On request, we are ready to make a private label for you.

Unsalted Blended Butter

UNSALTED BUTTER & UNSALTED BLENDED BUTTER

NASHA SELYANOCHKA

Brand

Product information:

Unsalted blended butter provides all the pleasure of butter. Product is used as butter substitutes in baking. The results in baking are almost very close to the natural butter. Blended butter is going to work well in baking that requires the creaming method needed to make baked goods rise. Also used for the personal consumption and for frying.

PALLERMO

Brand

Vegetable whipping cream

Product information:

Nowadays creams based on vegetable fat are commonly seen. There are several advantages of using imitation whipping cream compared to dairy whipping cream:

- Products with a fat content down to 20% can be whipped into a firm foam meaning that healthier products may be developed
- Higher overrun can be obtained with imitation whipping cream compared to dairy whipping cream resulting in improved cost in use calculation

Vegetable fat is lower priced than butterfat also resulting in better cost in use calculation

- Possibility to produce 100% vegetable products avoiding allergens and supporting veganism.

Vegetable cooking cream

Product information:

- Vegetable cooking cream is used as an alternative to dairy cooking creams in various culinary applications. From delicious sauces to pasta, curries or baking.
- Besides being a healthier alternative to dairy cooking cream, vegetable cooking cream gives you the ability to not only produce a cooking cream with lower fat but provide the consumers with an eating sensation of full-fat cream.
